Just Like Me – This pH balanced lubricant will stay wet for hours. Works only for the woman – will NOT work for male masturbation. May be applied to the penis prior to intercourse to lubricate the vagina or it can be applied directly to the vaginal area. This lubricant rewets naturally with natural lubrication or saliva.

Booty Ease – This cherry flavored benzocaine is our numbing cream. Simply use a small amount and give it a couple of minutes to absorb in and start working. Use it for anal activity to help ease the initial penetration.

Up All Night – Apply a 50-cent piece sized amount to his erect member and let soak into his skin for at least 10 minutes prior to intercourse. This will make him less sensitive to help him to last longer. Works great with a c-ring to keep him harder longer.

Coochy – Very concentrated so you only need a small amount. Use under the arms, on the legs, in the bikini area and on your man's face and neck. Wait a minute after applying before shaving to let Coochy absorb in to condition the roots of the hair.
