

Which Lube is Best for Me

SO MANY LUBES! SO MANY CHOICES! WHICH ONE IS BEST FOR ME?

Pure Romance offers a wide variety of lubricants to appeal to a wide variety of tastes. Lubricant is used for many reasons: personal dryness problems, anal intercourse, personal lubrication problems, to help ease insertion of tampons, water sex, toy play, masturbation, massage, and, to INCREASE SENSITIVITY FOR BOTH PARTNERS. To help you decide which lube or lubes are best for you, here is a quick summary of all six lubricants Pure Romance offers:

Just Like Me – Just Like Me is pH balanced for a woman so it will not change her taste, texture or odor. Pre-measured dispenser means one pump is one application. This lubricant will re-hydrate when you add a little water or saliva, no need to add more product! The original formula is excellent for women who get frequent UTIs, bladder infections or yeast infections because it does not contain any artificial flavors or dyes. Also available in strawberry.

Sweet Seduction – Good for you hyper-sensitive gals! This lubricant is fragrance free and formulated with all natural ingredients. Pharmaceutical-grade glycerin gives it a slightly sweet taste and a long lasting slippery feel both you and him will love! Also available in Sweet Mint or Vanilla.

Pure Pleasure – This is our premium waterproof lubricant. This is an excellent lubricant both for water sex and anal sex and play. Pure Pleasure will not dry up because it contains silicone which will never be absorbed by the skin. This lubricant is recommended for women with vaginal dryness to be used at any time throughout the day. Because of the silicone, Pure Pleasure **CANNOT** be used with silicone toys. Additionally, this lubricant can be used to assist you with your monthly self breast exam as it won't wash off in the shower and it's slippery feel will help you locate any abnormalities during your monthly self breast check.

Pure Silk - This silicone lubricant has all the same wonderful features of our Pure Pleasure, except that it's made safe for use with any of your silicone toys. If you own any toys and you're looking for a waterproof lubricant, I'd suggest Pure Silk.

Sensations – This is our warming lubricant! Cool when you put it on, warm when you rub it, and hot when you blow on it! Great for foreplay and oral favors. Sensations comes in many of your favorite flavors!

Whipped – Contains Shea Butter so this lubricant doubles as an excellent all over body moisturizer and can be used as a massage lotion. Thick, buttery texture and available in all natural flavors. Great to use with any of our male stimulators for a nice slippery feel for him!
